

# America ON WHEELS

A MUSEUM OF  
Education - Entertainment - Events

## EDUCATION

### Educational Programs and Field Trip Opportunities

America On Wheels offers entertaining and engaging ways for K-12 students to understand and appreciate the history and science behind transportation technology.

The Museum's 43,000-square-foot facility offers:

- Guided or Self-Guided Tours
- Hands-on Learning Experiences
- Museum Scavenger Hunt
- Lunch Available Upon Request

**Book Your School, Summer Camp,  
Field Trip or Group Tour:**

## America On Wheels Educational Programs

**Schedule Your Visit by Calling:**

**610.432.4200**

**americaonwheels.org**

### **Magic Seat Belt Tour**

Each child straps on a "magic seat belt" for a pretend automotive time machine journey

**Grades K-3** (*Science, History*)

**Length:** 70 minutes

### **Museum Scavenger Hunt**

Students gain a deeper understanding of transportation's history by exploring exhibits and answering questions

**Level 1 Hunt** (*Grades 1-5*)

**Level 2 Hunt** (*Grades 6-12*)

### **Restoration Learning Center Programs:**

#### **Different Engines With Many Fuels**

Real-life examples of engines and fuel sources, including the future of hydrogen fuel

**Grades 3-12** (*Physics, Science*)

**Length:** 90 minutes

#### **Behind the Ropes and Under the Hood**

Roll up your sleeves for an in-depth tour, technical session and Q&A on the social and technological history of the automobile

**Grades 7-12** (*Math, History, Physics, Auto Shop*)

**Length:** 2 ½ hours

#### **How Does That Engine Work?**

Learn how an engine ticks - and then take apart a one-cylinder engine

**Grades 4-9** (*Physics, Auto Shop*)

**Length:** 5 hours (over 2 days)
